

Product Overview

Across the country, drug abuse effects businesses of every size, from every industry. If left unchecked, it can seriously compromise the safety, stability and integrity of your company. Consider the following statistics:

- Each year, substance abuse in the workplace costs employers over \$81 billion in lost productivity
- Drug abuse increases the number of workplace accidents and fatalities, absenteeism, workers' compensation claims, and health care costs
- Nearly 7% of full-time adult employees and 9% of part-time employees use illegal drugs
- Over 70% of substance abusers are employed

OPENonline has partnered with the nation's leading provider of drug screening services to provide a full line of substance abuse testing that features easy program administration and fast, online results.
